Established in 1999, the Western Port Catchment Landcare Network supports and represents 14 Landcare and special interest groups across the region

www.wpcln.org.au

PO Box 176, Koo Wee Rup, VIC 3981

WHAT IS LANDCARE?

Landcare aims to enhance, restore and regenerate the land, native vegetation and waterways in partnership with private landholders.

We also engage with Landcare volunteers and the broader community through our Landcare events, field days and training in the areas of:

- Sustainable and regenerative agriculture
- Farm planning
- Establishing shelterbelts on farms
- Pest animal and weed control
- Integrated pest management
- Protecting remnant vegetation
- Increasing habitat for native species
- Wildlife monitoring
- Planting for pollinating species
- Protection and revegetation of waterways
- Reducing soil erosion and sediment runoff

WPCLN PROJECTS

WPCLN delivers projects across the Network area in accordance with our Strategic Plan and to assist our members to achieve their Landcare goals. They include:

- Smart Farming in Western Port
- Melbourne Water Stream Frontage
- Connecting and Increasing Habitat for Nectar Feeding Species
- Linking Native Pollinators and Sustainable Food Systems
- Cardinia Biodiversity Grants and Western Port Fire Recovery
- Cannibal Creek Catchment Biodiversity

WPCLN PARTNERS

HOW CAN LANDCARE HELP YOU?

A range of options are available to assist landholders in the adoption of sustainable land management practices, such as:

- Access to grants for fencing and planting shelterbelts
- Land management advice
- Identification of weeds and native species
- Support from your local Landcare group
- Land management training skills in soils, pasture management, and property design
- Farmer peer support e.g. farmer and grower discussion groups
- Erosion control/stabilisation advice
- Field days on various topics
